

Michigan Estate Planning — Why It Matters

Because “my family will know what to do” is often the first sentence in a paperwork problem.

Last Will and Testament

Controls who receives property and who handles the estate.

Medical Power of Attorney

Puts medical decisions into trusted hands when the client cannot act.

Financial Power of Attorney

Helps keep finances moving without an unnecessary court detour.

HIPAA Authorization

Lets chosen people obtain medical information when it matters.

Lady Bird Deed

A very practical Michigan tool for a home when used correctly.

Revocable Family Trust

Helps with continuity, organization, and probate avoidance when properly funded.

Bottom line: If the client does not create a plan, Michigan already has one ready.
